

AVONDALE UNIVERSITY COLLEGE

STUDENT MENTOR PROGRAM

CONNECT, LEARN & GROW

At Avondale we believe that a sense of belonging goes hand-in-hand with academic and social success. The purpose of the mentor program is to help foster an early sense of belonging within the Avondale University College Community. By instilling a sense of belonging in new students, it sets them up for holistic success which is integral to their Avondale experience.

What is Student Mentoring?

Student mentoring aims to encourage, enable and empower new students by intentionally linking them with peer mentors. Mentors aim to foster a welcoming, inclusive, and supportive community. Mentors will help to orient new students to the Avondale campus, whilst also providing practical support and information that will empower students as they pursue higher education.

HOW TO BECOME A MENTOR:
