

AVONDALE UNIVERSITY COLLEGE

STUDENT MENTOR PROGRAM

CONNECT, LEARN & GROW

Starting university is an exciting and new experience. As a new student it can be great to have someone to show you the ropes and help you navigate the new waters of tertiary education.

At Avondale we believe that a sense of belonging goes hand-in-hand with academic and social success. Which is why we have decided to introduce the student mentors program this semester. The purpose of the program is to help foster an early sense of belonging within the Avondale University College Community. By instilling a sense of belonging in new students, it sets them up for holistic success which is integral to their Avondale experience.

Mentors will help to orient new students to the Avondale campus, whilst also providing practical support and information that will empower students as they pursue tertiary education.

HOW TO CONNECT WITH A MENTOR?
